

Pleasanton Pioneer Cemetery

A place of history and remembrance...

Capital Projects - Site Improvements

The Capital Project site improvements, completed and planned, are derived from the Pioneer Cemetery Master Plan which provides guidance for site improvements as well as operation of the cemetery. The Pioneer Cemetery Master Plan may be viewed on the City of Pleasanton website:

http://www.cityofpleasantonca.gov/resident/pleasanton_pioneer_cemetery/default.asp

The City is invested in site improvements at the Pioneer Cemetery with over \$1,000,000 spent to date and an additional \$1,950,000 allocated for subsequent phases for a total investment of approximately \$3,000,000.

Phase 1 – Veteran’s Memorial and Drive Aisle improvements – Completed fall 2016 - \$320,000 City investment, \$302,000 Veterans investment

This project was funded by the City of Pleasanton and the Veterans community of Pleasanton. Site improvements included a Veterans Memorial, paving of the drive aisle, installation of irrigation and trees along the drive aisle.

Phase 2 – Storage and Parking – Completed summer 2018 - \$460,000 investment

Site improvements included storage area, parking spaces, and associated landscaping.

Phase 3 - Entry and Wayfinding Improvements – Construction to begin fall 2019 - \$480,000 investment

The wayfinding and entry improvements serve both as aesthetic and practical improvements that will include:

- New planting and irrigation along the Sunol Blvd. frontage and at the entry of the cemetery
- An information kiosk near the parking area
- wayfinding signage that marks the various sections of the cemetery
- New pathways and planting in Upper Care, Lower Care, and North Hill West sections
- Hanging flower baskets along the main drive aisle
- Additional parking
- Paving the remaining segment of drive aisle that has yet to be paved

Phase 4 - South Hill Improvements – Construction to begin summer 2020 - \$980,000 estimated investment

The improvements planned for the South Hill and South Hill West sections of the cemetery will provide for greater utilization sections as well as improving the aesthetics. Improvements will include:

- a committal area for graveside and celebration of life ceremonies
- a pathway from the parking area to the new committal area and the potter's field
- landscaping and construction materials consistent with the previous phases
- additional parking

Future Phases – Additional Burial Capacity – to be determined – \$490,000 estimated investment

The elements for future phases are yet to be determined but as contemplated in the Pioneer Cemetery Master Plan, may include the addition of cremains niches and casket plots.
